

23rd January 2007

OpSec Security Group plc

Trading update

OpSec Security Group plc, the supplier of high quality anti-counterfeiting technologies and services, released today the following trading update.

Further to the statement in our Interim Results' Announcement in November 2006 the Group's American and European operations have continued to perform at record levels and the order books for the balance of the year are strong. This leads the Company to believe that results for the year ending 31st March 2007 will be significantly ahead of current market expectations.
